LOCATION: The selection of Zagreb as congress site is connected to the enduring legacy of Professor Andrija Stampar, president of the first World Health Assembly (which coined the current WHO definition of health), founder of Zagreb University's School of Public Health, and pioneer of person- and people-centered care. Zagreb with its beautiful fin-de-siècle European architecture will offer an inspirational and friendly atmosphere for our discussions and plenty of opportunities for leisurely and stimulating explorations. Zagreb will be waiting with its thousand fascinating faces to make us feel at home, ready to renew old friendships and develop new ones.
